S. 2943

Assistance for International Malaria Control Act

As cleared by the Congress on December 15, 2000

S. 2943 would establish a new commission to study, promote, and report to the President and the Congress on U.S. foreign policy in the Pacific region of Asia. The act could affect direct spending and receipts because the commission would have the authority to collect and spend gifts or contributions without further appropriation action. However, CBO estimates that the amounts involved would be insignificant.

The CBO staff contact is Sunita D'Monte. This estimate was approved by Robert A. Sunshine, Assistant Director for Budget Analysis.
